

SUPPLEMENTARY MATERIAL S2B

TABLE S2B | Spreadsheet with information on annual landings of 20 freshwater fish taxa in the Southern La Plata basin in Argentina (1934–1986) and annual freshwater fish exports of Argentina for 10 fish taxa (1994 and 2019). Annual landings of each taxa are provided in tonnes by each river or river reach. In some years, landing statistics for each species were pooled for all rivers of the basin (all rivers) or for all reaches of the Paraná River (Paraná all reaches). Species exotic in bold.
