TABLE S1 | Information on the road crossings, road density, catchment area, and the proportion of different land-use classes related to the calculation of the Riparian Zone Disturbance Index (RDI) for each stream site from the Santarém Region, Pará State, Brazil.

Site Code	Number of Road Crossings	Road-Stream Crossings Density (x/km²)	Road Density (km/km²)	Catchment area (km²)	Pasture (%)	Urban Areas (%)	Agriculture (%)	RDI
STM129-1x	13	0.057	0.705	227.260	0.261	0.006	0.319	0.922
